Media Statement

Ports of Auckland Capital Structure Review

Auckland Regional Holdings will support its largest investment, Ports of Auckland Limited, to ensure that it is sound financially and positioned to deliver long-term functionality for the Auckland and national supply chain.

The Ports of Auckland capital structure review, which was announced in February this year, is well advanced and will be completed by the third quarter of the 2009 calendar year.

Under the new Local Government (Tamaki Makaurau Reorganisation) Act 2009, an Auckland Regional Holdings decision of support will require confirmation from the new Auckland Transition Agency.
